#### INDEPENDENT AUDITORS' REPORT

Township Board
Township of Wayland, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Wayland, Michigan, as of March 31, 2007, and for the year then ended, which collectively comprise the Township's basic financial statements, as listed in the contents. These financial statements are the responsibility of the Township of Wayland, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Wayland, Michigan, as of March 31, 2007, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information, on pages 16 through 18, is not a required part of the basic financial statements but is supplementary information required by Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Township of Wayland, Michigan, has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

Township Board Township of Wayland, Michigan Page 2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Wayland, Michigan's, basic financial statements. The supplementary information, as listed in the contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Township of Wayland, Michigan (the Township), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies.

#### a) Reporting entity:

The accompanying financial statements present only the Township. There are no component units, entities for which the Township is considered to be financially accountable.

#### b) Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the Township. The effect of inter-fund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### c) Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources, measurement focus, and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) Measurement focus, basis of accounting, and financial statement presentation (continued): State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period All other revenue items are considered to be measurable only when cash is received by the government.

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Cemetery Fund accounts for the financial resources used for cemetery operations. Revenues are primarily derived from charges for services.

The Township reports a single fiduciary fund, Agency Fund, which accounts for assets held by the Township in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board (GASB).

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, then unrestricted as they are needed.

- d) Assets, liabilities, and net assets or equity:
  - i) Bank deposits Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is proportionately allocated to all funds.
  - ii) Receivables In general, outstanding balances between funds are reported as "due to/from other funds." No allowance for uncollectible accounts has been recorded as the Township considers all receivables to be fully collectible.
  - iii) *Prepaid items* Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in the government-wide financial statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

d) Assets, liabilities, and net assets or equity (Continued):

iv) Capital assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 (\$10,000 for infrastructure assets) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The Township has elected to account for infrastructure assets prospectively, beginning April 1, 2004.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements 15 - 60 years
Equipment 3 - 5 years
Cemetery equipment 5 - 10 years
Vehicles 3 - 5 years
Roads 10 - 30 years

- v) Fund equity In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balances represent tentative management plans that are subject to change.
- vi) Property tax revenue recognition Property taxes are levied as of December 1 on property values assessed as of December 31 of the prior year. The billings are due on or before February 14, after which time the bill becomes delinquent and penalties and interest may be assessed by the Township. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Township levy date is December 1, and, accordingly, the total levy is recognized as revenue in the current year.

#### NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, and department. The legal level of budgetary control adopted by the governing body is the activity level. All annual appropriations lapse at the end of the fiscal year.

The following schedule set forth significant budget variations:

<u>Fund</u>	Function	_Activity	Budget	Actual	Variance		
General	Public safety	Inspections	\$ -	\$ 21,119	\$	21,119	

### Township of Wayland NOTES TO FINANCIAL STATEMENTS (Continued)

#### NOTE 3 - CASH:

The Township's cash is as follows:

	Goı	/ernmental					
	activities		Fid	uciary	<u>Total</u>		
Cash	\$	843,973	\$	374	\$ 844,347		

#### Deposits with financial institutions:

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) and the Township's investment policy authorize the Township to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The Township's deposits are in accordance with statutory authority.

Custodial credit risk of deposits is the risk that, in the event of the failure of a depository financial institution, the Township will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are uncollateralized. As of March 31, 2007, \$676,570 of the Township's bank balances of \$856,279 was exposed to custodial credit risk because it was uninsured.

The Township believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

#### NOTE 4 - RECEIVABLES:

Receivables as of year end for the government's individual major and nonmajor funds, in the aggregate, are as follows:

Fund	Ac	counts		roperty taxes	Special essments	gov	Inter- ernmental	_Total_

Total	\$	3,387	\$	22,950	\$	471	\$26,808			

#### NOTE 7 - DEFERRED REVENUE:

Governmental funds report deferred revenues in connection with revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, deferred revenue consisted of unavailable special assessments.

#### NOTE 8 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS:

A summary of interfund transfers for the year ended March 31, 2007, is as follows:

<u>Fund</u>	Fund Transfer in		Fund	Tra	Transfer out		
Street Lighting	\$	2,500	General	\$	2,500		

The transfer to the Street Lighting Fund provided for the General Fund's share of operational costs.

#### NOTE 9 - RISK MANAGEMENT:

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Township has purchased commercial insurance for each of these claims and is neither self-insured nor participates in a shared-risk pool. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

#### NOTE 10 - CONSTRUCTION CODE ACT:

A summary of construction code enforcement transactions for the year ended March 31, 2007, is as follows:

#### Members of the Township Board Township of Wayland, Michigan

In planning and performing our audit of the financial statements of the Township of Wayland as of and for the year ended March 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Township of Wayland's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Our consideration of internal control included procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented, but it did not include procedures to test the operating effectiveness of controls, and accordingly, was not directed to discovering significant deficiencies in internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control that we consider to be a material weakness.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiency constitutes a material weakness.

The Township does not have procedures in place to prepare financial statements in accordance with U.S. generally accepted accounting principles, including procedures to reconcile and adjust cash, record revenue and expenditure accruals, and changes in capital assets, and to present required financial statement disclosures.

This communication is intended solely for the information and use of the Board of Trustees of the Township of Wayland and the State of Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.
